## We are the coffee beans roasting company

Founded in 1988, BEANS KITAMI has been providing high-quality, fresh coffee beans to the Kitami area and beyond. We roast our own beans in small batches to provide optimum freshness. We also roast the beans according your preference and taste (from light to dark roasts.)

**BEANS KITAMI carries a wide range of beans from around the world.  
About 50 kinds of raw beans are available at any given time.  
In addition, we always have a stock of special limited-time beans.  
Contact us for our specials!**

It takes at least 20 minutes to roast. If you are in a hurry, we always have pre-roasted beans ready for pickup.

We sell our beans according to their raw, unroasted weight. After roasting, the weight of the finished product may vary (by about 10-20%) due to the loss of water during the roast process. Thank you for your understanding.

Discounts available for large quantity orders. (Orders must be placed at the same time. Not valid for combined orders.)
